GENERAL INFORMATION

The University announces as its summer policy readiness to organize courses for which a demand appears, either or both terms. Courses for which adequate registration does not appear will be withdrawn.

Brigham Young University is organized into the following colleges and divisions:

- College of Applied Science
- College of Arts and Sciences
- College of Commerce
- College of Education
- College of Fine Arts
- Division of Religion
- Research Division
- Extension Division
- Graduate School

There are thirty-eight regular departments of instruction. An elementary training school and a secondary training school are also maintained in connection with the College of Education. The University Library contains more than 141,000 volumes and 50,000 pamphlets and bulletins. Twenty-one special collections add strength to the general library. During the summer session the Library is open from 7:00 A. M. until 9 P. M. Numerous special scientific and art collections together with the museum supplement the special equipment of the University.

THE SUMMER QUARTER

In addition to its usual offerings of courses which may be completed in either the first or the second term of the summer session, the University has this year co-

ordinated certain first and second term courses in all departments so that students must register in June for a full quarter's work as they do for any other quarter in the year. This arrangement offers the convenience of short sessions (both to be held on the city campus) for students who do not wish to devote their full summer to academic work. It also offers a full quarter to those students who prefer it.

Thus the summer sessions constitute a fourth quarter of high-grade university instruction. The unusual strength in the summer faculty greatly aids students who are completing course requirements and department majors and minors; it also aids students who are pursuing studies for advanced degrees.

The addition of many visiting specialists in various fields enriches the program and makes the summer session an outstanding quarter of the university year.

OFF-CAMPUS HOUSING

The Office of Student Housing prepares a list of living accommodations, available on personal call. These lists include apartments, room and board, and rooms only. Students renting furnished rooms rely for board on various eating places. The university cafeteria offers limited service during the summer.

CAMPUS RESIDENCE HALLS

The University has ample housing facilities for summer school students. Allen Hall will be in service for men students exclusively during the summer quarter only. Knight Hall will be in service for women students. In addition to Knight Hall, a number of university owned co-operative houses will be available for women students.

All rooms in campus living units accommodate two persons comfortably. The cost of room and board for

occupants of Allen Hall and Knight Hall is \$110.00 for the 11 weeks on the basis of two students per room. For the first term the cost is \$60.00. For the second term the cost is \$50.00.

Applications for campus accommodations should be made early and sent directly to the Chairman of Student Housing, Brigham Young University. Regular application blanks will be sent on request, and should be returned accompanied by a \$5.00 deposit. This should be sent in the form of a check or money order.

SERVICES TO VETERANS

The University provides a full offering in representative vocational and occupational fields, thus permitting returned service men to meet occupational objectives and other programs under Public Laws 16 and 346. Courses are set up in all departments in such a way as to make continuous work through both summer terms easily possible. Students may thus earn credit for a full quarter's work during the summer session. The University is offering courses in all fields to meet the needs of students who wish to fill group requirements. Every effort will be made to help men make such adjustments as are necessary in order to fit next autumn into the regular student classification as freshmen, sophomores, juniors, or seniors.

The Veterans' Administration has a Counseling and Training Unit on the campus to which five people devote their full time. This organization ensures advice and guidance for all returning veterans.

The University will help all veterans to secure adequate housing.

RECREATION

Though summer school students naturally wish to earn credits, they are entitled to have some fun while they do it. For teachers and others whose regular work draws heavily upon health resources the matter of social contacts and physical relaxation is supremely important. Recreation occupies a large place in Brigham Young University summer sessions. A healthful balance between work and play is maintained. Concerts, socials, teas, and dances are regular parts of the summer school activity. A rich program of lectures, musicals, and entertainments supplement the academic work.

Throughout the summer there will be a wide opportunity for student participation in various intramural sports activities for both men and women.

GYMNASIUMS

Both gymnasiums will be open for showers and activity purposes. Students using the towel service are required to make a twenty-five cent deposit, by purchasing a towel check. The towel check is exchangeable for towel service during regular school hours. Towel checks are redeemable at any time. Students registered for physical education activity courses are required to provide themselves with a basket locker, and an approved combination padlock. Padlocks may be rented from the department. Both gymnasiums will be available for recreational uses by summer school students at various hours during the day. Some types of equipment will be supplied, and supervision and assistance will be given in developing game techniques. Consult the bulletin boards in both gymnasiums for complete details.

1946 SUMMER SCHOOL RECREATION CALENDAR

Thursday, June 13, Get-acquainted Social. Recreation hall, Smith Building. 9 p. m. Informal. Summer school students and their friends are invited as guests of the school.

Thursday, June 20, Boat trip to Rock Island, Utah Lake.

Thursday, June 27, Dancing party. 9 p. m. Informal. Smith Building.

Wednesday, July 3, Week-end trip to Yellowstone Park. Bus will leave Wednesday afternoon.

Friday, July 12, Annual Timpanogos Pre-hike Program. Timpanogos Theatre at Aspen Grove. 8 p. m.

Saturday, July 13, Thirty-fifth Annual Timpanogos Hike. Hike will start at 4 a. m. from Aspen Grove. All hikers reaching the Summit of Mt. Timpanogos will be presented the official Timpanogos Summit Club badge.

Men students interested in playing Volley Ball are invited to meet in the Men's Gymnasium Tuesday and Thursday, 4:00 to 6:00 p. m.

Those interested in Softball will meet at the Stadium House Monday and Wednesday, 4:00 to 6:00 p. m.

Women students interested in recreational activities will note the schedule posted in the Women's Gymnasium.

Both gymnasiums are open daily for physical activity and use of the showers.

THE DIVISION OF RELIGION

Since experience in spiritual things and an appreciation of their deep significance in all human affairs is an essential part of the culture of every educated person, Brigham Young University makes the religious motive foundational to its entire program.

The Division of Religion presents a rich program for all persons who wish to pursue study of religion for general purposes, and for those who wish to teach in the Church seminaries and in all other Church organizations.

REVIEW AND REFRESHER COURSES FOR TEACHERS

A large number of review and refresher courses are available for teachers who have been out of service for some time and who are now recalled to active teaching. Some of these courses are listed in the catalogue under the division of Education, while many others are listed under the specific subject matter departments.

CLINICAL WORKSHOPS, WITH PUPILS PRESENT AND CLASSES OPERATING

All the ordinary advantages of the customary workshop are heightened and made more pertinent by the actual presence of pupils in classes in the elementary and the secondary schools at Brigham Young University. No other school in the inter-mountain region offers so complete a functional type of workshop in the summer. Curricula, courses of study, teaching units, and teaching materials organized under the stimulation and testing made possible by the presence of actual classes are clearly superior to those done purely on a library and round-table basis. This unique opportunity for clinical, func-

tional workshop experiences for teachers, supervisors, and administrators is available in the summer training schools of Brigham Young University.

DEMONSTRATION CLASSES

Several grades in the elementary school are in regular session throughout the first term. These groups are taught daily by regular teachers of the Elementary Training School. Classes will be organized for (1) kindergarten, 1:00—3:00 p. m.; (2) first grade, 9:00—11:00 a. m.; (3) second and third grades, 9:00—11:00 a. m., and (4) fourth, fifth and sixth grades, 9:00—11:00 a. m. The work of these groups and their teachers may be observed daily by students who are registered in the Summer School.

The work in the high school classes will provide beginning and experienced teachers in secondary schools an unusual opportunity to observe actual learning and teaching situations. Opportunities for diagnostic analysis, and discussion of actual teaching problems and processes will be provided through these high school classes. In a limited number of cases, opportunity will be provided for experienced teachers to participate in the teaching of these classes under supervision; this constitutes an opportunity to secure advanced practice teaching or training in the summer.

CREDIT CLASSES FOR HIGH SCHOOL PUPILS

It is possible for pupils of high school grade to attend the University High School from June 10 to July 19 and earn high school credit. In view of the present world conditions and of the needs of the high school student at this time several courses are offered. See pages 46-47.

HIGH SCHOOL GRADUATION BY SUMMER SCHOOL

Students who need only one or two units to complete high school graduation will find their needs served uniquely this summer in the University High School where courses for high school credit will be taught. Able students who are just short of high school graduation may under certain conditions be permitted to enter some college courses where their program demands it.

A LONG-TIME PROGRAM IN READING

The 1946 summer quarter at Brigham Young University will continue the long-time program in the improvement of reading at all levels. The program will emphasize the critical place of reading throughout modern civilization and in all forms of organized educational institutions. The program will foster systematic study of reading deficiencies, and will seek to find improved methods of establishing effective reading skills and improved reading tastes. Through greater attention to meanings beneath words, through the use of "basic" vocabularies, and through improved skills in reading more than one language, the program will direct attention to the opportunities for promoting better understanding between classes of people within the nation and between nations themselves.

Underlying this program are the assumptions that reading is the most-needed tool in all education, in schools and out of them, and that continuous promotion of more efficient reading skills is the task of every instructional department within colleges and universities as well as secondary and elementary schools.

The program, at the elementary school level, will be coordinated with the work of the Utah State Department

of Public Instruction. Dr. Fay Adams of the School of Education, University of Southern California, will teach courses in reading and in elementary education. At the secondary school level the work will consist not only of courses in reading and in the improvement of instruction in English, but clinical groups of high school students will be taught under an actual diagnostic and remedial program in which teachers, principals, and supervisors may participate as observers and students. Mrs. Anna Hart and Mrs. Bauer will assist in supervising this program.

THE SUMMER MUSIC FESTIVAL

A Summer Music Festival will be conducted during the first six weeks' session.

Detailed announcements can be secured from the Dean of the College of Fine Arts and the University Lyceum Committee.

MUSIC CLINIC

A band clinic will be held from July 29 to August 10. High school and college students from Utah, Idaho, Wyoming, Colorado, Nevada and Arizona will participate in two weeks of concentrated musical activity, including band and orchestra rehearsals, sectional rehearsals, private lessons, ensemble playing and concerts. High school music teachers will receive courses in methods of teaching brass, woodwind and stringed instruments, music theory, and band and orchestra conducting, for which college credit will be granted.

For details concerning the clinic write to Dr. John R. Halliday, Conductor of Brigham Young University Band and Director of the clinic.

ROUND-TABLES IN EDUCATION

Each Tuesday evening during the first six weeks of the Summer Session, round-table discussions in Education will be conducted. These discussions will deal with vital problems relating to educational philosophy and procedures. The round-table discussions are conducted under the direction of the Department of Philosophy of Education with members of the university faculty cooperating. Students, faculty members, and friends of the university are invited.

THE GRADUATE SCHOOL

The Summer Quarter offers an especially good opportunity for graduate students to pursue their studies and to make progress on theses. Deans, heads of departments, major professors and other members of the regular University faculty are available during the summer session to guide students in formulating graduate programs and to assist in their proper completion. A special effort is made in the summer to assist graduate students who teach during the regular year to select and define problems appropriate for thesis work and to devise suitable procedures for the solution of these problems. Pertinent courses of instruction in the principles of scientific study and the procedures of thesis writing are given.

Two higher degrees are offered: the Master of Arts degree, provided the candidate meets the foreign language requirements for the Bachelor of Arts degree; and the Master of Science degree. Three full quarters of work above the bachelor's degree ordinarily permits the student to complete the requirements. Under proper programming of work with the department concerned and with the graduate school the requirements can be met in three full summer quarters.

GENERAL INFORMATION

ENTRANCE FEES

| | |
|---|---------|
| Either first or second six-week term alone..... | \$20.00 |
| Two terms successively..... | 35.00 |
| Gymnasium and student service fee..... | 2.00 |
| Pupils in the Elementary Training Schools, One term (six weeks)..... | 3.50 |
| Pupils in the University High School, per course, six weeks in length..... | 3.50 |
| Student service, and concert card fee, optional. | |
| Special students, one to three quarter hours, per credit hour..... | 3.00 |
| (Four to nine hours of credit constitute a regular registration under the regular fees) | |

AUDITORS

Students who register for a full term load under the term fee may audit other courses with no additional fee, provided they secure an auditor's card from the registrar and present it to the instructor in the course. Special students may audit courses, provided they pay the same fee in each course as would be required for regular credit, i. e., \$3.00 per credit hour. Only the University registrar issues auditor's cards; the treasurer receives the fees.

Information about fees for private instruction, and certain other fees in some special departments, may be obtained from the office of the University treasurer.

REGULAR COURSES OF INSTRUCTION

While regular classes will not be held for fewer than five graduate students, such students may register for graduate work in any department of the University and receive individual attention. Courses bearing numbers above 100 are primarily for graduate students.

Courses not announced in this catalogue, but listed in the Annual Catalogue of the University, may be organized, provided a sufficient number of students apply.

Courses for which an adequate number of students do not register will not be continued beyond the first week of a session.

AGRONOMY

Professor Martin

51. General Crops. M. W. F. Three credit hours. Martin.

This course will deal with principles and practices of crop production. It emphasizes crop growth, diseases and crop improvement.

ART

Professors Larsen, Jenson; Mr. Andrus, Miss Hardman

2, 52. Art Appreciation. Second term. M. T. W. Th. Two credit hours. Larsen.

A study of art structure in relation to pictorial composition.

5. Portrait and Figure Drawing. First term. Daily. Three credit hours. Andrus.

Designed for students who have had no previous experience in figure drawing. No prerequisites.

7, 57. Oil Painting. Second term. M. T. W. Th. One to nine credit hours. Larsen.

13, 63. Water Color Painting. Second term. M. T. W. Th. One to nine credit hours. Larsen.

14, 15, 16. Commercial Art. Second term. M. T. W. Th. Two to six credit hours.

These courses are elementary courses in pen lettering, brush lettering and layout.

15. Commercial Art: Brush Lettering. First term. Daily. Three credit hours. Andrus.

Study of fundamental brush strokes and simple alphabets. Emphasis on speed. No prerequisites.

42, 43, 44, 92. Normal Arts. Second term. M. T. W. Th. Three credit hours. Jenson.

These courses are designed for elementary teachers, with the idea of introducing them to such techniques as will give ability in producing as well as directing the creative work of children. The work is correlated with the other courses of the curriculum and is used as a motivating agent for the fusion of unit work.

55. Portrait and Figure Drawing. First term. Daily. Three credit hours. Andrus.

BACTERIOLOGY

Professor Martin; Associate Professor Anderson

21. **General Bacteriology.** First term. Daily. Three credit hours. Martin.

This course will consist of a study of the general characteristics of microorganisms and their relation to man.

22. **General Bacteriology: Laboratory.** Second term. Two credit hours. Anderson.

Laboratory course in general bacteriology, designed to accompany Bacteriology 21.

60. Sanitation and Public Health. Second term. Three credit hours. Anderson.

A study of the application of sanitary and public health practices to the health of the individual and the community.

92. Soil Microbiology. First term. Three credit hours. Martin.

A lecture course designed to acquaint the student with microorganisms in relation to soil fertility. Prerequisite: Bacteriology 21.

98. Bacteriology: Special Problems in Bacteriology. First or second term. Credit to be arranged. Martin and Anderson.

BOTANY

Professors Harrison, Stewart

1. General Botany. First term. Three lectures and two laboratory periods each week. Three credit hours. Harrison.

A course dealing with the fundamentals of the structures, physiology, and reproduction of plants. Prerequisite course to further work in the field of plant life. Also recommended for the non-science student.

5. Trees and Shrubs. Second term. Daily. Three credit hours. Staff.

The names and characteristics of the common trees and shrubs and their usages in commerce and as ornamental plants. The cultivated species are stressed, but native species are also considered from the point of view

of their possible usages and according to their classifications. This is primarily a field course.

51. Morphology of Fungi. Second term. Three lectures and three laboratory periods each week. Three credit hours. Staff.

A study of the development, morphology, and relationship of representative fungi.

80. Plant Ecology. First term. Three lectures and two field trips each week. Three credit hours. Harrison.

The plant in relation to its environment and its adaptation to the factors of soil and climate; plant communities and succession of various types of vegetation.

189. Range and Forest Ecology. Either term. One to four credit hours. Stewart.

Distribution of desert and mountain plants as influenced by the climate and soil environments. Graduate students may be admitted by application for a thesis problem in the field.

97, 197. Special Problems in Botany. Either term. One to three credit hours. Harrison.

CHEMISTRY

Professors Maw, Nicholes; Associate Professors Bryner, Peterson; Assistant Professor Wing

1. A Survey Course in Chemistry. First term, second term. Daily. Three credit hours each term. Peterson.

For students who desire an elementary knowledge of Chemistry for its cultural value.

4. General Chemistry. Continuous through both first and second terms. Lecture M. W. F., Laboratory T. Th. Five credit hours. Peterson and Nicholes.

5. General Chemistry. Continuous through both first and second terms. Lecture M. W. F., Laboratory T. Th. Five credit hours. Nicholes.

A continuation of Chemistry 4.

6. Qualitative Analysis. Continuous through both first and second terms. Lectures T. Th., Laboratory M. W. F. Five credit hours. Bryner.

A course in the principles and practices of inorganic qualitative analysis.

10. Elementary Quantitative Analysis. Continuous through both first and second terms. One lecture each week, 2 laboratory periods. Three credit hours. Wing.

Gravimetric Analysis.

11 or 62. Elementary Quantitative Analysis. Continuous through both first and second terms. One lecture each week, 2 laboratory periods. Three credit hours. Wing.

A continuation of Chemistry 10. Volumetric Analysis.

71. Organic Chemistry. Continuous through both first and second terms. Lecture M. W. F., Laboratory T. Th. Six credit hours. Maw.

A study of carbon compounds. Laboratory experiments in the syntheses and reactions of the different classes of organic compounds.

72. Organic Chemistry. Continuous through first

and second terms. Lecture M. W. F., Laboratory T. Th. Six credit hours. Maw and Wing.

A continuation of course 71.

81. Physical Chemistry. Continuous through both first and second terms. Three lecture and one laboratory periods. Four credit hours. Bryner.

This course deals with properties of gases, liquids, solids, solution thermochemistry reaction velocity; electro-chemistry; equilibrium and colloids.

COMMERCE

*Professors Clark, Hoyt, Miller, Boyle; Miss Spencer,
Mr. Peterson, Mr. Crandall*

ACCOUNTING AND BUSINESS ADMINISTRATION

1. Elementary Accounting. First term. Two hours daily. Two hours laboratory. Five credit hours. Staff.
